THE IMPORTANCE OF SURGE PROTECTORS

WHY YOU SHOULD CONSIDER GETTING ONE INSTALLED

Power surges are too frequent to not take measures for protection. A professionally installed whole-house surge protector is an investment that can save you thousands. Most insurance claims for this type of **damage exceed \$10,000**. Even if a surge does not cause noticeable damage, with time, electrical components begin deteriorating prematurely leaving you with the cost of repairs and replacements.

**SURGE PROTECTORS ARE BECOMING
NECESSARY TO SHIELD YOUR
ELECTRICAL EQUIPMENT AND HOME**

A study was performed by The Fire Protection Research Foundation to measure the cost of power surges affecting homeowners.

THE RESULTS WERE AS FOLLOWS

reported
repair costs
under
\$10,000

reported
damage in
excess of
\$50,000

immediately bought
a surge protector
after experiencing
surge damage

POWER SURGES ALSO POSE A THREAT TO SAFETY

10.7%

injured as a
result of a
voltage surge

85.3%

responded
life-safety
equipment was
damaged or lost
function*

*equipment such as smoke/CO2 detectors, fire alarms, security systems, etc.

WHAT CAN CAUSE POWER SURGES?

Surges and abnormalities within our electrical system are common and frequent. These fluctuations are typically caused by

APPLIANCES

By cycling on and off throughout the day, appliances are responsible for 60-80% of power surges occurring within your home. Low-level surges eventually degrade the internals of your expensive electronics.

FAULTY ELECTRICAL WIRING

With age or unprofessional service, your home's electrical system may become unsafe. You may want to have your electrical system inspected as a precaution.

HIGH ELECTRICITY DEMAND

Caused by extreme power grid usage.

FALLEN LINES

Caused by external forces like storms, wildlife, fallen branches/ trees, and more.

LIGHTNING

Can instantly cause unprecedented damage to your home.

Don't get stuck with thousands in home repair costs. Get your electrical system protected with a whole-house surge protector. **Call us at (800) 568-8664 to get started.**
